

Locker Bulletin Board Instructions

Items you are given: 1 cork square (do NOT remove the paper backing from the piece of cork, the self-stickiness will not be needed for this craft), 4 craft sticks, 1 magnet, and 2 clothespins

Items you will need: glue

Step 1: Frame your piece of cork with the craft sticks. Glue a craft stick on both of the side edges of the cork piece, then glue the remaining craft sticks on to the top and bottom to create a frame. The top and bottom craft sticks will be glued to the ends of the side craft sticks.

Step 2: Glue the two clothes pins onto your craft. You can put them wherever you like: Onto the cork, onto the frame, one on the frame and one on the cork.....it is your choice how you want to arrange them. These will hold notes and other important things for you. Let everything dry completely!

Step 3: Once the front is completely dry, flip your craft over and glue a magnet to the back of your locker bulletin board. Let this also dry completely before you hang it up. You are done!!

Optional Steps: You can use thumb tacks on your bulletin board to hang even more on it and you can also add some color to your finished craft by using markers (or paint) to color the craft sticks.
