

Gates Public Library Take & Makes for Teens

MINI PIES

Your kit should include: 1 square of tan felt, several pony beads, and 1 bottle cap

Supplies you will need: glue (such as Elmers or Tacky), sharp scissors

Step 1: Cut a circle out of the tan felt and securely glue it into the bottle cap (this is the pie shell).

Step 2: Add more glue to the “pie shell” and glue in your pony beads. Try to position the beads so that the bead “holes” are not too visible.

Step 3: Cut 4-6 VERY THIN strips of the tan felt. (these will be the top crust strips).

Step 4: Glue the “top crust” strips over the pony beads in a crisscross fashion.

Step 5: When dry, trim off any excess felt if desired.

You are done! If you want you can add a magnet to the back so you can put it on your fridge, or attach a hanger for hanging up or attaching to a gift.
