

## **Flower Magnet Instructions**

**Items you are given:** A regular cupcake liner, a mini cupcake liner, a craft stick, green paper, one rhinestone, and 1 magnet

**Items you will need:** Glue & Scissors

**Step 1:** Flatten both cupcake liners. Fold the regular cupcake liner in half. Then fold it in half 3 more times.

**Step 2:** Starting at the folded edge, carefully cut a curve into the cupcake liner so that when it is opened, it resembles a flower. Repeat Steps 1 and 2 for the mini cupcake liner.

**Step 3:** Glue the mini cupcake liner to the center of the regular cupcake liner, and then glue the rhinestone to the center of the mini cupcake liner.

**Step 4:** Glue the craft stick to the green paper. Allow the glue to dry. Carefully trim the paper from around the edges of the craft stick.

**Step 5:** Cut out 2 leaves from the green paper and glue to the back of the craft stick. Glue the covered craft stick to the back of the flower. Glue the magnet to the back of the craft stick at the top (behind the flower cupcake liners). Enjoy your flower magnet!
