

Spooky Spiders

Things you are given: 2 black paper circles, 2 pom poms, 4 pipe cleaners, 4 googly eyes, and 16 beads

Things you will need: glue, scissors

Step 1: Cut 2 pipe cleaners in half (so there are 4 equal length pieces) and twist all 4 pieces together for legs in the middle.

Step 2: Glue where the pipe cleaners meet to the center of one black circle. *Let dry thoroughly.* When dry, turn over and spread out the legs to 4 on each side, bending them straight up.

Step 3: Make a “knee” and bend them down. Add a bead to the bend for a knee. Position the legs bending as needed until you get the perfect position for your spider.

Step 4: Glue the pom pom onto the back of the black circle. Then glue on googly eyes.

Step 5: Repeat with the rest of the supplies to make a second spider!
