

# Holiday Elf Ornament Instructions

**Supplies you are given:** One craft stick, one piece of green paper (to use for 2 parts), one green pipe cleaner, one piece of string, one pompom (colors vary), one bell, one yellow piece of paper, two googly eyes

**Supplies you will need:** Glue stick, school glue, scissors, marker or pen

**Step 1:** Using the ***glue stick***, coat the bottom 3/4 of the craft stick and glue on the piece of green paper. You will also need to use some of that paper for the hat so make sure to save enough. Once the glued paper is dry, trim off the excess paper. Then, using the ***glue stick***, coat the top part of the craft stick (where the hat will be) and glue on the remaining piece of green paper. Once dry, trim off the excess.

**Step 2:** Cut a narrow strip from the yellow paper, and using the ***glue stick***, glue it to the bottom green paper to form a belt.

**Step 3:** Using ***school glue***, glue a pompom to the middle of the yellow belt.

**Step 4:** Put some ***school glue*** all over the green paper that is going to be the hat. Start wrapping the green pipe cleaner loosely around and around the craft stick to somewhat cover the green paper. Extend the end of the pipe cleaner at the top and swirl it a bit to make a pointy hat top. At the very end, attach the bell by putting the pipe cleaner through the loop on the bell. Secure by bending the pipe cleaner end over the loop.

**Step 5:** Using ***school glue***, add the googly eyes and then draw on a mouth with the marker or pen.

**Step 6:** Make a loop with the string and glue it securely to the back of the elf with ***school glue***. Once completely dry, it will be all set to hang on a tree or wall or window or.....wherever!
