

Paper Strip Apple Craft

Things you are given:

- Red paper template
- Green paper template
- Small green paper
- Small brown paper

Things you will need:

- Glue
- Scissors

Step 1: Cut out the strips from the red paper template.

Step 2: Align the strips so that they cross in the middle (forming a circle) and glue each down in the middle. Wait for the glue to dry before moving on to step 3.

Step 3: Glue the tops of the strips together, forming a sphere. Let dry.

Step 4: Cut out two leaves from the small green paper and glue together at the base.

Step 5: Glue the small brown paper (this is the stem) to the bottom of the leaves. Crease the leaves and stem at the bottom and the glue all three pieces to the top of your apple.

Step 6: Repeat with the green paper template.

Step 7: Enjoy your newly made paper apples and have a happy fall!
