

Black Cat Decoration

Items you will need: Toilet Paper Tube, Black, Yellow, Green, Pink, and White Construction Paper, Pencil, Scissors, Glue Stick

Step 1: Cover your tube with black construction paper, trim any paper that sticks out over the edges of the tube. Let Dry.

Step 2: Draw a cat head and tail shape on your black construction paper and cut them out.

Step 3: Cut a thin strip of green construction paper to make a collar for your cat. Glue this around the outside of the top of the tube. Let dry.

Step 4: Decorate your cat head shape with the other colors of construction paper, giving your cat eyes, nose, ears, mouth and thin whiskers. Glue these details onto your cat head shape. Once dry, glue the decorated cat head onto the top of the tube that you covered in Step 1. It's OK if it covers part of the collar. Let dry.

Step 5: Glue the tail onto the back, bottom of the tube you created in Step 1. If you want, glue it on an angle so that when you look at the finished cat from the front, the tail will be peeking out a bit. Let dry.

Your Cat is all finished!
