

Water Color Mitten Garland (instead of mittens, you can also draw different designs like stars, hearts, etc.)

(You will be drawing and decorating mitten shapes on white paper with a white crayon, then when you apply water color paint to the designed mitten, the paint will apply everywhere EXCEPT for the designs you drew.)

What you will need: White cardstock, White crayon, Watercolor paints, Paintbrush, Scissors, Hole punch, Ribbon, Water in a cup

Step 1: Draw mitten outlines with white crayon on white cardstock. Use white crayon to fill in the mittens with patterns, shapes, and designs.

Step 2: Paint over crayon with watercolors to reveal the designs you drew with the white crayon. Dry 1–2 hours.

Step 3: Cut out mittens with scissors.

Step 4: Punch holes on both sides of the mitten cuff.

Step 5: String a piece of ribbon through the holes and trim to desired garland length.
