

Winter Bookmark

Items you are given: assortment of pony beads, length of white yarn, large paperclip, snowflake charm

Items you will need: scissors, school glue

Step 1: Knot your length of yarn to the paperclip. Knot it at the “single loop” end. Make sure to knot it securely. Add a drop of glue to the knot so it doesn’t come undone. Let dry. Cut off any yarn ends.

Step 2: Thread the pony beads onto your yarn. Create a pattern or keep it random. Your choice.

Step 3: Knot the snowflake charm to your yarn after your last pony bead. Make sure it is secure. Add a drop of glue to make sure the knot does not come undone. Let dry. Cut off any extra yarn.

Step 4: Once things are all dry, you can clip the paperclip to your book page and let the beads dangle down the front or back of the book.
