Do you remember going to the library as a child and seeing all the books you could take home for free? Or do you remember working on a school assignment at the Gates Public Library? Whether you're a young adult or an older adult, you can continue enjoying the library and its free resources and educational programs. The Gates Public Library serves as an important asset for lifelong learning to the community and surrounding areas. Donations to the Library augment public tax dollars and are gratefully received and judiciously expended. Please consider an individual or group donation. Thank you for your support!
